

The BSave Defender Account is an effective way to protect the value of your Bitcoins from price fluctuations. It allows you to hedge a nominal USD amount that reflects a certain Bitcoin-USD exchange rate upon "locking" your funds. Meaning, when you wish to "LOCK" a Bitcoin the Defender will convert the amount to USD and will display a fluctuating Bitcoin amount, based on the nominal USD amount received in the exchange. For example, if you "LOCK" 1 Bitcoin and the current exchange rate is 400 USD, meaning 1 Bitcoin is worth 400 USD, you will then see on the Defender 1 BTC. If, when "UNLOCK"ing, the exchange rate is that 1 Bitcoin is worth 200 USD, the savings account will be credited with 2 BTC. This can help you protect your Bitcoins value from price fluctuations at the press of a button.

Please note that while having your funds locked in a Defender Account can protect their value if the Bitcoin price falls, you will miss out a higher value should Bitcoin's price rise.

If you would like to LOCK your funds, please press on the LOCK button.

A pop up will appear where you will be able to define the amount of BTC to be locked and to see the estimated USD amount that will be locked, based on the estimated BTC/USD price.

LOCK YOUR BTC AT MARKET PRICE

BTC AMOUNT

0.25✓

AVAILABLE BALANCE: 0.251424 BTC

\$2,063.26ESTIMATED BTCUSD PRICE (8,253.03)

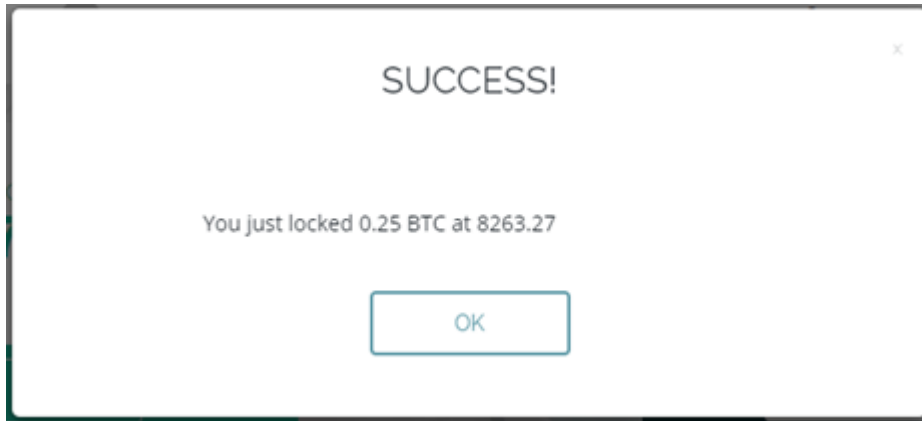

Please enter the amount of BTC you want to lock in your Bitcoin Defender Account.

CLOSE

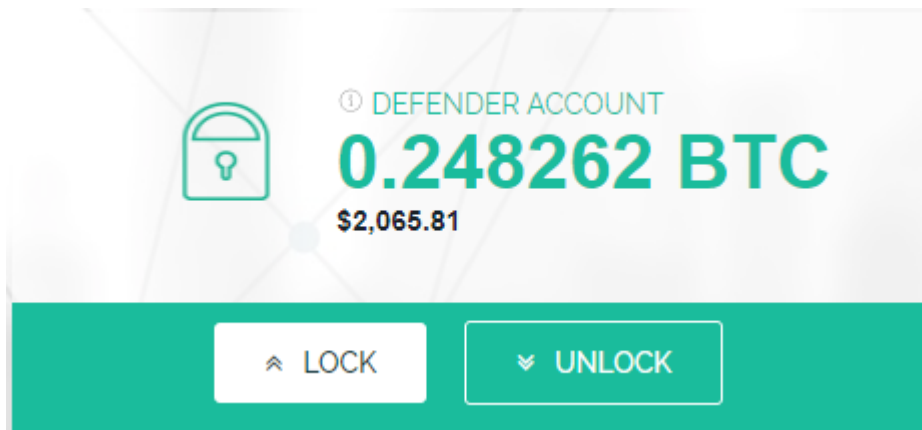

LOCK

Please note: Most of the time we keep the bid-ask spread around 1% however some changes might occur in illiquid market conditions.

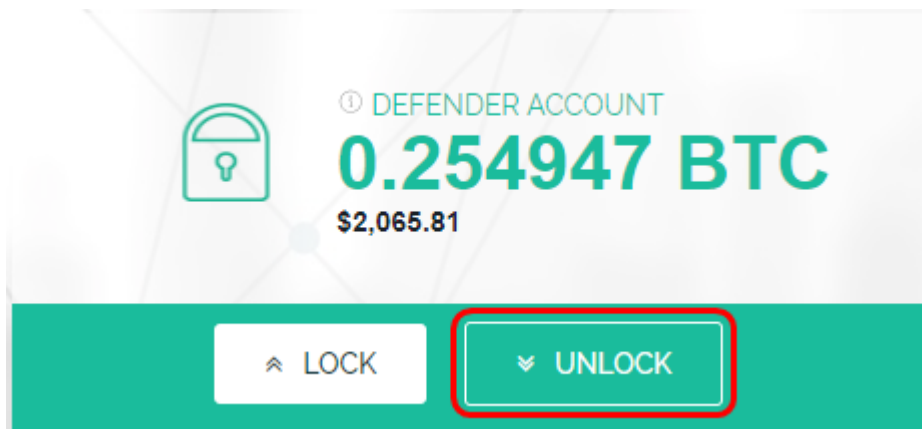

After pressing the LOCK button you will receive a message indicating that the LOCK was successful. Indicating the amount that you requested to LOCK and the exchange price.

You will now see the Bitcoin value fluctuating, based on the BTC-USD market prices.

When you wish to UNLOCK, press the UNLOCK button.

A pop-up will appear where you will be requested to enter the USD amount you wish to UNLOCK and to see the estimated BTC amount that will be unlocked, based on the estimated BTC/USD price.
